Summary

Education

Vellore institute of technology, Vellore Jul 2024 – Jul 2028
Computer Science | Bachelor of Science (BS)
GPA: 9.26

Skills

Data Structures (Intermediate), Problem Solving (Intermediate), Version Control (Git) (Intermediate),

Basic SQL (Intermediate), Software Development Life Cycle (Beginner), Programming Fundamentals (Expert),

Algorithms (Intermediate), Object-Oriented Programming (Intermediate)

Communication Skills
English (Expert), Spanish (Beginner), Hindi (Expert)

Certificates

program on python for Artificial Intelligence,Machine Learning and Deep learning Jul 2026
IIT kanpur

Projects

Eye Gaze

This Project was built in a team of 5 under the faculty Ezhil Arasi mam of Vellore Institute of Technology ,Vellore. This project helps improve the day to day communications of neurological patients that are unable to talk or even unable to respond to others through sign language or hand gestures . It monitors the Eye ball movements of the patients against the screen displaying sections for Food,Water,medicines enabling them to communicate by gazing over the desired portion. It is also equipped with an anomaly detection system that could report an emergency situation by analyzing the gathered eye ball metrics .
My tasks were following:
Developed a web-based notification system to confirm AI-detected emergencies, improving patient safety and caregiver responsiveness.
Engineered an alert SMS integration system to notify caregivers of critical patient conditions, ensuring immediate intervention.
Designed and maintained a robust database for patient, event log, and hospital official data, enhancing data integrity and accessibility.

Weather App

Developed a weather application providing real-time conditions for user-selected cities, enhancing user access to critical information.

Integrated a RESTful API to efficiently retrieve and display dynamic weather data, ensuring accurate and up-to-date information delivery.
Designed an intuitive user interface for city selection and weather detail presentation, improving user experience and data accessibility.
